as concise as possible, consistent with Simplicity and Clearness; and to exemplify those Rules with such Examples as are most likely to occur in Business. He has also shewn with great Clearness and Perspicuity, the Reason of each Rule in Notes; and in this Part of his Work, Mr. B. has shewn great Ingenuity and Judgment.

"By confining every Thing of this Nature to the Notes, the Author has been enabled to keep his Text free from long Explanations, so that nothing is found there, but what the Learner ought to transcribe, and fix in his Memory; a Matter which seems to have been too much neglected by most of those Authors, who have undertaken to write on the Subject of Arithmetic for the Use of Schools. On the whole, we shall not hesitate to declare, that we think this little Book will be found very useful both to the Teacher and Learner." Vide MONTHLY REVIEW.

XLV. A CHART OF BIOGRAPHY, containing about Two Thousand Names of Persons the most distinguished in the Annals of Fame, the Length of whose Lives is here represented by Lines drawn in Proportion to their real Duration, and placed so as to shew by Intuition, how long any Number of Persons were contemporary, and how long one Life begun before, or extended beyond another. The Names are also distributed into Classes. By the same. 10s. 6d.

The Price of these Charts on Canvas and Rollers, is 14s. each.
